## Toolbox

VueJS, Bulma, Bootstrap, Illustrator, Photoshop, Figma, Sketch, HTML5, CSS3, SCSS, JavaScript, Headless Wordpress, MySQL, Git, Swift & SwiftUI

## Skills

Front-End Web Development, Responsive Design, Accessibility, User Interface Prototyping, UX & UI, OOP, REST API, Relational & Document-Based Databases, Brand Identity, Logo Design, Typography, Packaging Design, Kanban, Scrum

## Experience

- 2016–p.t.      Freelance: designed and developed small websites and landing pages for businesses, designed print materials, logos (VueJS, Sketch, Figma, Bulma, Illustrator, Headless Wordpress, AngularJS, Bootstrap)
- Dec. 2021      O-Micro (iOS-app, pet project): designed and developed a minimal-viable product app that estimates how much time and battery it would take to ride an electric scooter/bike from point A to point B (SwiftUI, MapKit, Sketch, Figma)
- July  
–Sept. 2018      Analytical portal for broadcasters (pet project): developed an MVP web-app using MeteorJS that periodically pulls client's data from another platform via REST API, transforms that data for storage and display of broadcaster's working hours and income statistics in a more meaningful way than what the native solution provides (MeteorJS, MongoDB, Blaze, Bootstrap)
- July 2017  
–June 2018      Kazan Hosiery Factory (Казанская чулочно-носочная фабрика), web and graphic designer: created and managed several websites for B2B sales, designed packaging, ran ad campaigns (Headless Wordpress, Bootstrap, AngularJS, Illustrator)
- Feb.  
–May 2017      Open Psychology (startup), full-stack web developer: designed and developed an event listing platform using MeteorJS (MongoDB, Blaze, Bootstrap)

## Higher Education (Bachelor of ICT)

- 2015      Institute of Computational Mathematics and Information Technologies,  
Kazan Federal University: Applied Mathematics and Information Technology
- Taught a course in 2014 on iOS Development Fundamentals (Objective-C, MVC) at the Olympic Center at the university

## Courses

- 2021      CodeWithChris.com courses: iOS Foundation & Design (Swift 5, SwiftUI, MVVM)
- 2016–2018      TeamTreeHouse.com courses ([profile](#)): JavaScript, Grunt, REST API, MongoDB, CSS, Scrum, Swift, Brand Identity, Web Typography, UX/UI, Wire-Framing & Mockups, Prototyping, Accessibility

## Languages

English — fluent

Dutch — elementary proficiency (A2)

Russian — native
